William Sessions pg. 99.

Early census may indicate yet another William or same William
as above. If he married as shown above in between the 1810-1820
censuses, then he wouldn't have been a head of family in 1810 census.
If William of 1820 Conecuh is this William, then he did have another
son possibly Richard D, but if infant counted, then this family
could not be yours.
